

**3<sup>rd</sup> UK STROKE RESEARCH WORKSHOP 2019**  
**Organised by the NIHR Stroke Speciality Group**  
**Wed 11<sup>th</sup> and Thur 12<sup>th</sup> September 2019**  
**Manchester**  
**Medical Student Bursary**

The third UK Stroke Research Workshop, organised under the auspices of the NIHR CRN Stroke Speciality and generously supported by the Stroke Association, will be held on 11<sup>th</sup> and 12<sup>th</sup> September 2019 at Chancellors in Manchester

The workshop promises to be a very exciting two days with some excellent National and International speakers. It will also provide a great opportunity for exchanging ideas between experienced stroke specialists and other young researchers. It will be held in the Chancellors hotel in Manchester. There is accommodation available on site.

There will be updates on the latest stroke research including sessions on brain haemorrhage, psychological and cognitive consequences of stroke, stroke prevention, blood brain barrier and small vessel stroke, stroke recovery, and the microbiome and stroke, as well as a session on navigating the research pathway. It's a great opportunity to hear about translational and clinical stroke research, meet other researchers, and present your work.

One or more fully funded bursaries (registration fees, accommodation and dinner as well as £100 towards travel) are available for medical students. One of these is funded from the Jane White Stroke Research.

To apply submit a one page abstract of a research project in stroke you have carried out – you should be prepared to present this orally or as a poster. We welcome both clinical and pre-clinical projects. This should be structured with title; authors; institution; background, methods, results, conclusions.

Any queries and submissions should be sent to [strokepa@medschl.cam.ac.uk](mailto:strokepa@medschl.cam.ac.uk).  
Closing date is 9<sup>th</sup> June 2019.
